Sistema de Identificação de Cores - Desenvolvido com base nas três cores primárias representadas através de símbolos gráficos, o código ColorADD assenta no conceito de "adição de cores", permitindo ao daltónico relacionar os símbolos e facilmente identificar toda a paleta. Ver mais www.coloradd.net

Symbols that include color - This code was developed based on the traditional three primary colors represented through graphic symbols, the ColorADD system is built on the concept of adding in color, allowing the color blind to associate the symbols, easily identifying the basic color combinations. For more information www.coloradd.net

Système d'identification de couleurs - Développé à partir des trois couleurs primaires représentées à travers de symboles graphiques, le code ColorADD assie en el concepte de "adition de couleurs", permettant au daltónico de relier les symboles et de facilement identifier toute la palette.
